

ART GUIDELINES

AD DESIGN

Email us your artwork right away. What works best is a high quality logo, contact info including a website that we can link to and a simple message or list of services. Once we receive that from you, a Tablio graphic designer will design your ad and email you a proof to review. Then tell us about any changes you would like to make, and we'll make it happen.

READY MADE AD

Please make sure the file is in the correct size & does not contain any image or type that are too small to see. If you have a single size ad, be concise. Don't crowd the area & focus on what's most important.

COPYRIGHTS

We are unable to use photos, logos, trademarks or artwork from another company or artist without express permission from the original source.

If you provide Tablio designers with a photo, logo, or other piece of artwork, you are responsible for confirming that the piece of artwork is free for public commercial use or that your company has the rights to use it. If you need help finding a piece of artwork that is available for public commercial use, let us know and we will help you create or find something suitable.

AD CHANGES

You can request changes up to three times a year. This means changing the information on the ad, not a complete layout re-design. We can re-design your ad to fit a holiday sale, company occasion or special discount. If you are providing your own complete design you may resubmit as often as you like.
